MANAGED TECHNOLOGY SERVICES DIVISION
COMMUNICATIONS SYSTEMS, INC.

LET US LEVERAGE TECHNOLOGY TO EMPOWER YOUR BUSINESS TO SUCCEED!

Did you know that the average small business spends 6.4% of its revenue on technology, of which 80% is after the initial purchase? That means acquiring new technology isn't nearly as expensive as monitoring and maintaining it to make sure it's performing like a well-oiled machine.

SAY HELLO TO COMMUNICATIONS SYSTEMS MANAGED TECHNOLOGY SERVICES

As Communications Systems, Inc. Managed Technology Services, we pride ourselves in creating, refining and offering an affordable and 24/7/365 model of managed technology services. As a result, we have helped companies just like yours in VA, MD and the Greater DC Metro area with proactive approach to technology management. Our U.S. Based help desk is a seamless extension of our remote monitoring platform. Your employees can instantly access the help desk via call, chat, or email at any time of the day, or night--drastically reducing downtime.

LET US BECOME YOUR VCIO AND TECHNOLOGY ADVISOR

Let us take technology off of your hands. We'll ensure every aspect of your technology is maintained and monitored properly by our expert team so when problems arise – we'll be there every time. Most importantly, we don't let technology issues bring your business to a halt. That means we monitor your company's desktops, servers, data, mobile devices, firewalls, printers and related devices - often fixing issues before you even know you have them. We are your ultimate technology Watch Dog.

OUR MANAGED TECHNOLOGY SERVICES INCLUDE:

- 24/7/365 Remote monitoring and remediation over your entire technology environment
- Faster problem resolution via a proactive approach
- Identify and analyze server "events" for potential problems and in many cases resolve the issue before it impacts your business

- Ensure security patches & anti-virus protocols are current
- Monitor and implement completed data backups and correct errors as needed
- Better financial planning resulting with predictable costs
- Monthly, or Quarterly vCIO services

Have peace of mind knowing we constantly monitor and correct any technology issues before they become costly or detrimental to your business – especially now in the new world of business 'normal.'

LET US PROVE OUR VALUE WITH A FREE TECHNOLOGY ASSESSMENT OF YOUR BUSINESS

That's right. We are so sure that we will provide expertise and confidence in our managed technology services and also provide value in your investment, that we are offering a FREE technology assessment. All it takes is an email or quick call to set a time convenient for you. When we meet, we'll have an open dialogue that will result in a technology assessment of your business that demonstrates why our clients trust, rely and appreciate the insights and value we bring.

"We aim to keep your hardware up and running for 5 years, but recommend that you budget for 3 years fleet refresh. In this way, we can always have funds in the budget to use on future IT investments to ensure you and your staff is operating at peak performance with office technology."
Trent Edwards
